Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 13-20 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 02/05651.

WO teaches that *Saccharomyces cerevisiae* have been treated with hydrogen peroxide and are cultured in a dextrose medium, see the whole patent especially, abstract, page 6, lines 10-30, the claims. The medium does not change the composition.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 13-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over WO 02/05651 in view of Campana et al. (US 5637491).

WO teaches that *Saccharomyces cerevisiae* have been treated with hydrogen peroxide and are cultured in a dextrose medium, see the whole patent especially, abstract, page 6, lines 10-30, the claims. WO does not use the same culture medium as in the claims.

Campana teaches that *Saccharomyces cerevisiae* is cultured in a blue-dextran (glycosaminoglycan) medium, see col. 10, lines 10-30.

In the event that it is seen that the culture medium does change the composition (which this examiner highly doubts) then it would have been obvious to one having ordinary skill in the art to use a blue dextran medium instead of a dextrose medium since they are functional equivalents.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael V. Meller whose telephone number is 571-272-
